

# Clingo

## User Manual

- After installing the apk file, Clingo is ready for use.  
You can write a math example in the middle of the app and click Run to solve it.

- There are three ways to reset or update the Clingo.js file on the Settings tab
  1. When using the factory reset, all updates are removed and the Clingo is reset to version 5.4.1

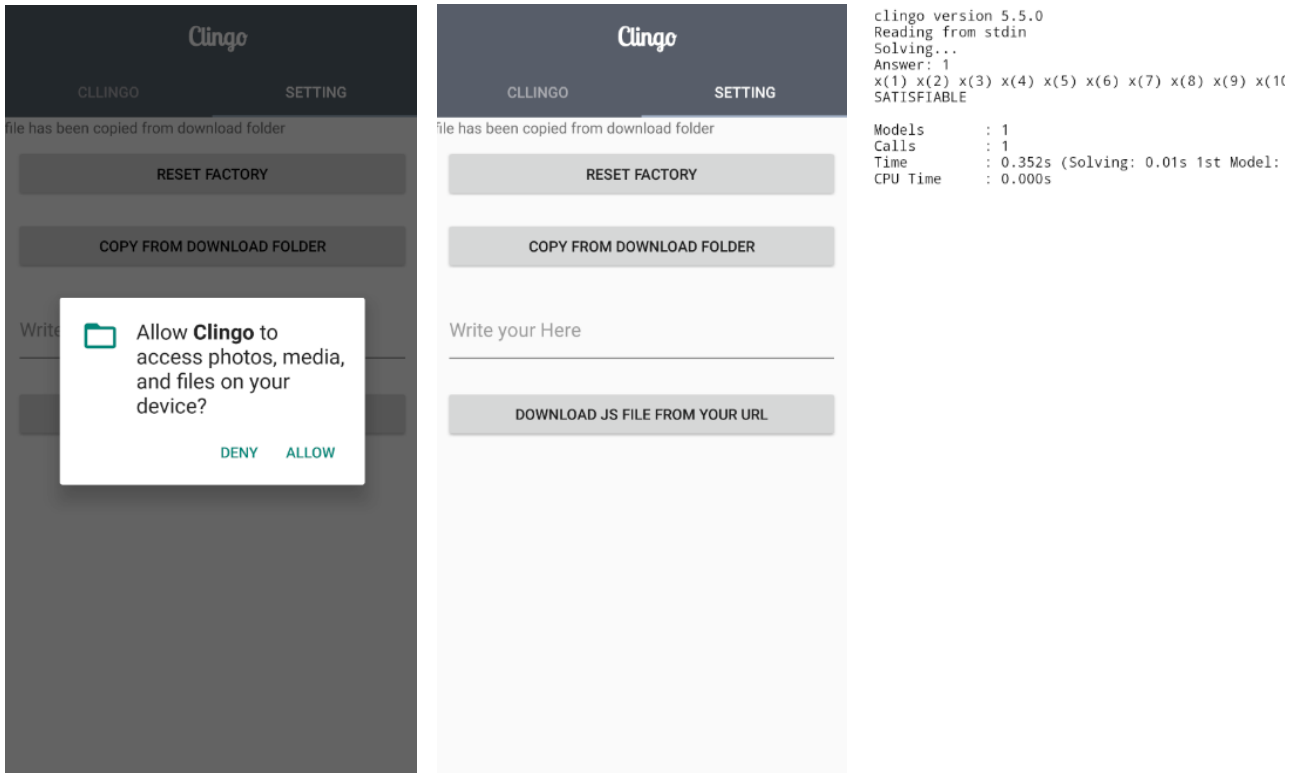

2. If you have downloaded a new version of Clingo and the file is in your download folder, you can update the Clingo js via "Copy from download folder"

\*\*\* Make sure the file name is Clingo.js \*\*\*

\*\*\* Clingo requires your permission to access the download folder \*\*\*

\*\*\* Here you should close and reopen the app to use the new version \*\*\*

3. You can also download your file from any server

\*\*\* Make sure the download link is a direct link and the file name is clingo.js \*\*\*

\*\*\* Here you should close and reopen the app to use the new version \*\*\*
